CONTACT ME AT

PERSONAL PROFILE

My name is Chu-young (Chu) Thabo Theko and I am a Front End Web Developer. I enjoy writing code and learning new technologies/languages. I am also progress-driven, a quick learner, and highly collaborative.

WORK EXPERIENCE

FREELANCER
Upwork | Dec 2020 - present

- Working with clients all over the world, building User Interfaces, and fixing up code from previous developers.
- Mainly writing HTML, CSS, and JavaScript for clients on the platform.
- Maintained a 5-star rating and a Job Success Score of 100%.

Projects

Travel and Attractions
React | Material-UI | Travel Advisor API | Open Weather API

- A website where one can find restaurants, attractions or hotels in their area or all over the world. One can also see what the weather is in any area as well.
- Visit site: https://attractionsapp.netlify.app/

Whats Going On
HTML | Materialize | JavaScript | New York Times API | Webpack

- A website that shows you the latest stories and top 13 books from the New York Times. You can purchase the books from Amazon as well.
- Visit site: https://whatsgoingon.netlify.app/

Skweeky Klean
HTML | SCSS | JavaScript | Video background | SVGs

- Website for a pool cleaning company with a cool and collected aesthetic.
- Visit site: https://skeeky-klean.netlify.app/
